If you have Local Option and/or Sales by County, click on the blue LOCAL OPTION / SALES ENTRY SCHEDULE button just below line 6a. This brings up a listing of all Iowa counties. Making Payments

If you have an amount due, you will be taken to the Payment Options screen. You have several payment options to choose from.

- “ePay” (direct debit) and “Mail a Check” are free.
- ACH Credit and Credit Card have a fee associated with them.

If you choose ePay, you will be taken to the US Account Verification screen. You will be asked whether the funds for the ePayment will come from an account outside the United States. If you answer “Yes,” you will be asked to either choose a different payment method or enter bank information for an account located in the United States. If you answer “No,” you will proceed to the ePay Information screen in order to schedule your ePayment.

Note: We will not draft ePayments from an account outside the United States.

At the ePay Information screen, the date and amount fields will be pre-populated. You can, however, change the date to any date up to and including the due date of the return. You can change the payment amount to reflect dollars and cents, if you want to pay the actual amount due instead of rounded amount due. Select the type of account, enter your bank routing number, bank account number, and click “Continue.”

At the verify ePay Information screen, you have the option to Edit or Submit. If everything is correct, click “Submit.”
