22. Total allowable Iowa Alternative Incremental Research Activities Credit (add lines 4, 19, 20 and 21)..... 22. _____

Special Instructions

Form 128A is used only if the taxpayer elects to use the alternative incremental research activities credit. The alternative credit is available for tax years beginning on or after January 1, 2000. Form 128 should be used if the regular research activities credit is claimed. The taxpayer may elect to use this alternative method regardless of the method used in computing the federal research activities credit. This option is for Iowa purposes and is effective only for the current tax year. The taxpayer is not required to use this alternative method in computing the research activities credit for subsequent years.

Lines 1, 2, 5, 6, 7, and 8 - Enter only that portion of the qualifying research expenses that occurred in Iowa.

Line 10 - Enter the average annual Iowa gross receipts for the four tax years before the year in which the credit is being determined. You may be required to annualize gross receipts for any short tax year.

Lines 19, 20, and 21 - If research activities are conducted in an enterprise zone, as set forth in Iowa Code Section 15E.186, the higher percentages can be used to determine the credit.
