8. Total Carryforward Credit to 2005. See instructions..... 8. _____

Instructions

An investment tax credit can be taken by eligible businesses for qualifying new investments. Those eligible businesses include the following, all of which must be approved by the Department of Economic Development as eligible businesses:

- ◆ Businesses qualified under the New Jobs and Income Program under Iowa Code Section 15.329, including qualifying businesses involved in the production of value-added agricultural products. This also includes cooperatives described in Section 521 of the Internal Revenue Code.
- ◆ Businesses qualified under the Enterprise Zone Program under Iowa Code Section 15E.193.
- ◆ Businesses qualified under the Housing Enterprise Zone Program under Iowa Code Section 15E.193B.
- ◆ Businesses qualified under the Eligible Development Business Program under Iowa Code Section 15E.193C.
- ◆ Businesses qualified under the New Capital Investment Program under Iowa Code section 15.384.

The credit is determined by multiplying the qualifying new investment by 10 percent, except for the New Capital Investment Program, which has various rates of 1% - 5%, depending on the number of jobs created. New investment includes the cost of machinery and equipment purchased for use in the operation of the eligible business, and the cost of improvements to real property. New investment also includes the cost of land and any buildings and structures located on the land. The credit can be taken in the year the qualifying asset is placed in service. For the housing enterprise zone program, the credit can be taken in the year the home is ready for occupancy.

Any credit in excess of the tax liability for the tax year may be credited to the tax liability for the following 7 tax years

or until depleted, whichever is earlier. Eligible businesses involved in the production of value-added agricultural products may elect to refund all or a portion of the unused credit by applying for a tax credit certificate from the Department of Economic Development.

Computation of Investment Tax Credit

Line 1. Enter the total amount of qualifying new investment for eligible businesses.

Line 2. Multiply amount on line 1 by the applicable percentage.

Line 3. Enter amount of Investment Tax Credit carryforward from prior year(s).

Line 4. If you received flow-through Investment Tax Credit(s) from a partnership, S corporation, estate or trust, enter the amount of the credit(s) on this line. You must also include a copy of the IA 3468 for the partnership, S corporation, estate or trust as well as a schedule showing the apportionment to individual partners, shareholders or beneficiaries.

Line 5. Total of lines 2 through 4.

Line 6. Enter the amount of the appropriate calculated state tax, line 19, IA 1120 (corporation return); line 11, IA 1120A (short form corporation return); line 53, IA 1040 (individual return); or line 27, 1041 (fiduciary return).

Line 7. The total allowable Investment Tax Credit is the lesser of the calculated credit from line 5 or the calculated tax from line 6. Enter the lesser of these two amounts here and on Schedule C-1, IA 1120; or on line 16, 1120A; or on line 54, IA 1040; or on line 31, IA 1041.

Line 8. If the credit amount of line 5 exceeds the tax liability on line 6, enter the difference here. This is the carryforward credit to 2005.
