NOTICE about local option tax:

Purchases subject to consumer’s use tax are not subject to local option tax. However, situations do sometimes arise where retailers do not properly charge the local option tax to their customers. Therefore, we have included lines on the consumer’s use tax return to allow for payment of the local option tax in those situations.

Example: A person located in a local option tax jurisdiction purchases items from a retailer located outside the jurisdiction. The retailer delivers the items in his truck to the person in the local option tax jurisdiction. The retailer charges the purchaser the state sales tax, but neglects to charge the additional local option tax. Since delivery was taken in the local option tax jurisdiction, the purchaser is responsible for remitting local option tax to the Department.

PART 2 Not all counties and cities have local option tax. Go to www.state.ia.us/tax to check our local option lists.
